Safety tips for outdoor cooking

☐ Grills must only be used outdoors.

☐ Keep the grill away from the siding and deck railings and out from under eaves.

☐ Place the grill a safe distance from play areas and foot traffic.

☐ Keep children and pets a safe distance away from your grilling area.

☐ Periodically remove grease or fat buildup in trays below the grill so it can't be ignited by the hot grill.

☐ Only use proper starter fluid for charcoal grills, and never add starter fluid to already ignited coals.

☐ Inspect the gas cylinder hose for leaks before using the grill for the first time each year. A light soap and water solution works well when checking for leaks.

☐ If you begin to smell gas while cooking, and the flame is still present get everyone away from the grill and call the Fire Department.

☐ Never store propane cylinders inside your home or garage. If you store your grill inside during the winter, disconnect the cylinder and leave it outside.
