Advanced Life Support Assessment: Advanced life support (ALS) assessment is an assessment performed by an ALS crew as part of an emergency response that was necessary because the patient's reported condition at the time of dispatch was such that only an ALS crew was qualified to perform the assessment. An ALS assessment does not necessarily result in a determination that the patient requires an ALS level of service, but does allow for an ALS level of payment.

Advanced Life Support, Level 1 Emergency (ALS1-Emergency): The provision of an ALS assessment by an ALS provider and/or the provision of one or more ALS interventions, unless otherwise defined by the Centers for Medicare and Medicaid Services, in which such definition shall be incorporated herein by reference.

(Paramedics, nurses and physicians may also perform BLS skills even though they have a higher level of training)

Disposable Supplies: Disposable supplies utilized in excess of the customary amount and not exchanged/replenished from hospital stock or billed by the receiving hospital.

EMS: Emergency Medical Services -- the services utilized in responding to those persons presumed to be in need of immediate medical care within the jurisdiction of, and areas adjacent to the City of Allentown, provided by the City of Allentown bureau of Emergency Medical Services or those agencies operating in conjunction with the bureau of EMS.

EMS Provider: A person or persons who have been trained to any recognized level of competency as defined by the Pennsylvania Department of Health, including: Ambulance Attendant, First Responder, Emergency Responder, Emergency Medical Technician, Advanced Emergency Medical Technician – Paramedic, Critical Care Paramedic, Pre-Hospital Registered Nurse (PHRN), Nurse, Physician Extenders or Physician.

External Automated Defibrillation: The application of an automated external defibrillator (AED) used to attempt to convert lethal abnormal electrical heart rhythms.

Extra Attendant: An additional attendant required to adequately manage patient care on scene or during patient transport.

Mileage: Distance traveled by an ambulance from the point where the patient is picked up ending at the destination, facility, usually a hospital.

Non-Resident: An individual domiciled outside of the City limits of Allentown.

Oxygen Administration: The administration of oxygen for the treatment of conditions resulting from oxygen deficiency.

Patient: Person receiving emergency medical services.

Reasonable Collection Efforts: The issuance of a bill to the patient or to the party responsible for the patient's personal financial obligations, and subsequent billings, collection letters and telephone calls or personal contacts which constitute a genuine, rather than token, collection effort.

Resident: An individual domiciled within the City limits of Allentown.

Rescue: Active utilization of fire department or EMS rescue tools and equipment to facilitate extrication of a patient from an entrapped or access-limited area.

SCT: Specialty Care Transport. Inter/intrafacility transportation of a critically injured or ill individual at a level beyond the scope of an Paramedic; unless otherwise defined by the Centers for Medicare and Medicaid Services, in which such definition shall be incorporated herein by reference.

BLS Encounter Charge: A charge to a patient (which may be paid by the patient's insurance in some cases) who has received an assessment or a BLS level of treatment by an EMS Provider at a scene, through actual, implied or informed consent, but who has refused transport to a hospital for any reason.

Special Event Stand-By: The utilization of an ambulance or squad vehicle and one or more EMS Providers to stand-by at a planned and organized activity, event or contest, where a large group or gathering is expected, when the likely potential for the provision of emergency medical services may exist.

Third Party Payer: An insurance carrier or other coverage provider having a responsibility or other obligation to pay for medical services rendered to a patient as a result of that patient's accident, injury or illness.

ALS Treat, No Transport Charge: A charge to a patient (which may be paid by the patient's insurance in some cases) who has received an ALS assessment or an ALS level of treatment by an EMS Provider at a scene, through actual, implied or informed consent, but who has refused transport to a hospital for any reason.

#### 391.04 POLICY

- A. The City recognizes the need to bill for these services to aid in the provision of Emergency Medical Services.
- B. No person requiring Emergency Medical Services shall be denied service due to a lack of insurance or ability to pay.
- C. All patients, whether or not domiciled in the City, and/or their financially responsible parties, insurers or carriers will be billed for emergency medical services provided by the City according to the charges established in Section 391.05 or at rates established by the City from time to time.
- D. The City shall make reasonable collection efforts, in some cases according to the most current rules or regulations set forth by the Centers for Medicare and Medicaid Services. The City may bill any applicable co-insurance carriers for such amounts not covered by primary insurances, as applicable by law. Exceptions include only those instances where the City has made a determination that the cost of billing and collecting such co-payments or deductibles exceeds or is disproportionate to the amounts collected.
- E. City residents shall not be held responsible for any balance due that is not covered by an insurance carrier with the exception of the deductible as long as said resident complies within 30 days of the date of the encounter with any and all requests for insurance information or verification of insurance (or lack thereof) from the EMS billing department. If the resident does not respond to the requests within the time frame above, the resident shall be responsible for the amount owed. An exception to this is when City Ambulances are not available due to resource depletion based on heavy call volume and where mutual aid ambulances are substituted to provide EMS services within the City of Allentown. In those cases, City residents may have additional charges above and beyond those covered by insurance based on the billing practices of the mutual aid ambulance service. (14843 § 1 12/1/10)
- F. The City shall not balance bill when prohibited by law.
- G. The City will allow reasonable payment arrangements in the event a patient cannot pay a bill all at once. (14843 § 1 12/1/10)
- H. A patient who received payment for City EMS bills from a third party payor is obligated to remit such monies to the City of Allentown (provided that the patient has not paid the bills directly). The City shall hold any patient who does not do so liable for any costs or fees related to the City's expenses of recovering the patient's EMS service fee.
