

Sewer Fund

Mission

Sewer Administration

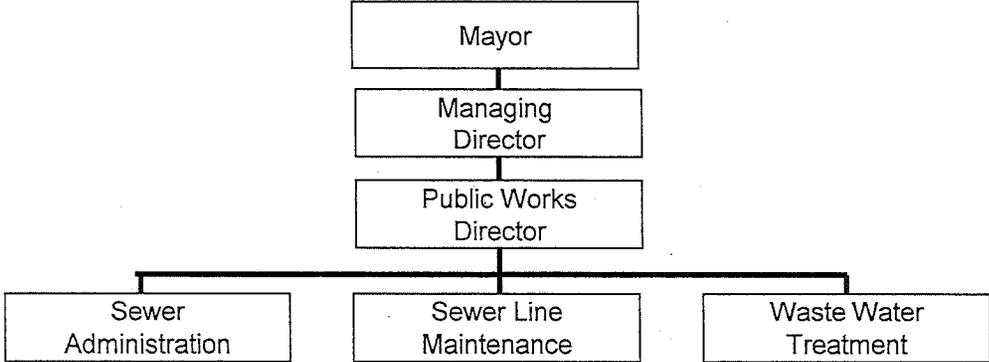

To provide engineering design and construction inspection services for all sanitary sewer extensions, storm water improvements, minor facilities at the wastewater plant, and maintenance of all permanent storm or sanitary installation records after construction.

Sewer Line Maintenance

To provide, through a combination of inspection, upgrading, replacement, and repair, for the maintenance of the collection system through which sewage is conveyed to the treatment facility.

Waste Water Treatment

To provide, in accordance with regulatory requirements, and utilizing recognized operational, maintenance, and laboratory procedures, for effective processing of all waste water entering the treatment facility. Similarly, to effectively maintain and support all related programs mandated by the Clean Streams Law and Amendments.

PROGRAM DETAIL

Bureau: Engineering	No: 03-3731	Department: Public Works	Program: Sewer Administration	No: 0002
-------------------------------	-----------------------	------------------------------------	---	--------------------

Program Description:

This program provides for the design and preparation of plans and specifications for sanitary extensions, minor facilities at the wastewater plant, and rehabilitation work on the City's collector system. Additional work includes the review of sewer plans for new subdivisions and assisting the Finance Department with technical aspects of preparing sewer service billings to suburbs.

This program provides contractors and homeowners with information regarding location and depth of lines, connection permits and fees, as well as schedules assessment appeals and other public meetings concerning sewer projects. Other program activities include calculation and billing of miscellaneous invoices and maintenance of sewer connection records.

Goal(s):

To provide administrative support through which the goals and objectives of other City service areas can be achieved.

Measurable Budget Year Objectives and Long Range Targets:

- To eliminate sources of exfiltration, infiltration, and inflow.
- To design sewer extensions/replacements and minor facilities at wastewater.
- To effect connection to available sewers of all properties in the City.
- To reorganize and microfilm sewer files.
- To monitor and update all sewer records.
- To improve employee efficiency through appropriate training.
- To computerize the permit process.

Impact/Output Measures	2009 Actual	2010 Actual	2011 Actual	2012 Estimated	2013 Budgeted
Sewer extensions/replacements	0	0	0	0	0
Hydraulic studies	0	1	1	1	1

PROGRAM DETAIL

Bureau: Collection & Distribution	No: 03-3732	Department: Public Works	Program: Construction & Maintenance	No: 0001
---	-----------------------	------------------------------------	---	--------------------

Program Description:

This program maintains repairs and replaces all sanitary and storm sewer lines, inlets and manholes. Employees provide emergency standby service 24 hours a day, 7 days a week, to respond to sanitary and storm sewer problems. Other program activities include daily inspection and maintenance of the sanitary and storm sewer collection system and continuing evaluation of the sanitary and storm sewer systems through daily CCTV inspection program.

This program provides support to the Streets Bureau for snow plowing, salting and removal on City streets, Hamilton Mall, bridges and City properties.

Goal(s):

To maintain an efficient and effective sanitary and storm sewer maintenance program to prevent system surcharging. To provide an efficient and effective storm sewer and sanitary sewer construction and repair program to ensure proper drainage, minimize property damage and extend the useful life of City streets. To determine the condition of the installed piping network and to effect repairs and restore the structural integrity of sewers either through in place grouting or project preparation. To document connection points to the sewer and/or stormwater conveyance systems in accordance with Federal and State pollution abatement programs.

Measurable Budget Year Objectives and Long Range Targets:

- To provide an ongoing maintenance program for repairs and replacement of sewer lines.
- To reduce root growth in the sanitary sewer system through the use of a chemical root control process.
- To reduce inflow and infiltration to result in increased sewer line capacity.
- To conduct systematic TV inspected evaluation of sewer and stormwater lines.
- To inspect new lines installed by others.
- To perform permit investigations at points of connection by industrial dischargers.
- To clean and flush lines during examination and inspections, and in response to customer requests.
- To grout and repair lines.
- To install and calibrate flow meters and retrieve data for Infiltration and Inflow studies.
- To provide proper drainage, thereby prolonging the life of streets.
- To prevent property damage resulting from collection system surcharging.
- To extend our present system in order to improve efficiency.
- To provide assistance during snow plowing / removal operations.

PROGRAM DETAIL

Bureau: Wastewater Treatment	No: 03-3733	Department: Public Works	Program: Operations	No: 0001
--	-----------------------	------------------------------------	-------------------------------	--------------------

Program Description:

This program provides for the operation & maintenance, process laboratory testing, and residual biosolids management of the City's Wastewater Treatment Plant. Activities include operation of the treatment facility, preventative and corrective maintenance of equipment and facilities used in the treatment of wastewater and the disposal of biosolids. Additionally included is the laboratory testing necessary to monitor plant efficiencies, ensure effluent compliance with federal and state regulations, monitoring of signatories for user cost recovery and industrial effluent compliance with pretreatment regulations. This program is a combination of Plant Operations & Maintenance, Laboratory Testing and Residuals Disposal programs.

Goal(s):

To provide the highest quality municipal wastewater service for our residential, commercial, and industrial users residing in the City of Allentown and surrounding communities at a reasonable price.

Measurable Budget Year Objectives and Long Range Targets:

- To meet tertiary nitrification effluent standards stipulated in the facility's National Pollution Discharge Elimination System (NPDES) permit.
- To assure effluent standard compliance through:
 - Analysis of plant samples to determine plant efficiency and compliance with discharge regulations.
 - Analysis of industrial discharge samples to determine compliance with federal, state and city regulations.
 - Analysis of storm water samples to determine compliance with federal, state, and city regulations.
- To abate wastewater treatment plant odors by:
 - Removal of biosolids in a timely manner.
 - Ensuring proper operation of all odor control systems and unit treatment processes.
- To Comply with the Administrative Order and Information Request, Docket No.: CWA-03-2007-0322DN issued by the USEPA pursuant to Section 308 and 309(a) of the Clean Water Act regarding wet weather discharges of untreated wastewater from Outfall 003 located at the headworks of the WWTP.
- To Comply with the Administrative Order and Information Request, Docket No.: CWA-03-2009-0313DN issued by the USEPA pursuant to Section 308 and 309(a) of the Clean Water Act regarding wet weather discharges of untreated wastewater from various points located prior to the headworks of the WWTP.
- To move forward with the design and construction of an EQ-Basin and Plant Headworks enhancements recently approved the USEPA and recommended by a Feasibility Study which analyzed pre-approved alternatives to eliminate wet weather discharges of untreated wastewater from Outfall 003.
- To continue mechanical renovations of the treatment facilities to extend service the life of existing processes and continue the high level of reliability; which includes renovations of the Supervisory Control and Data Acquisition (SCADA) system and enhancement of the plant security system.
- To complete the Kline's Island Wastewater Treatment Plant Expansion Alternatives Evaluation to determine ways to provide the necessary sewer allocation needed by the sewer signatories.

Impact/Output Measures	2009 Actual	2010 Actual	2011 Actual	2012 Estimated	2013 Budgeted
Total # of non-compliance effluent parameters for year	0	0	0	0	0
Incidents wherein individual unit processes are not functional for longer than one(1) day due to unscheduled mechanical/electrical problem	1	1	1	1	1
OUTPUT – WWT – LAB ANALYSES/YR.

PROGRAM DETAIL

Bureau: Wastewater Treatment	No: 03-3733	Department: Public Works	Program: Pretreatment	No: 0005
--	-----------------------	------------------------------------	---------------------------------	--------------------

Program Description:

The Pretreatment Program staff develops and implements mechanisms and procedures for enforcing the Environmental Protection Agency's (EPA) National Pretreatment Standards, Title 40 of the Code of Federal Regulations, Part 403, and controlling the introduction of non-domestic wastes into Publicly-Owned Treatment Works (POTW).

Goal(s):

To provide for the environmental safe discharge and treatment of sewage as described in the City's NPDES (National Pollution Discharge Elimination System) permit No. PA0026000. To provide for equitable cost recovery through high strength surcharge program.

Measurable Budget Year Objectives and Long Range Targets:

- To prevent the introduction of pollutants into the sewers which may interfere with treatment operations.
- To prevent the introduction of pollutants into the sewers which may pass through the treatment works or be incompatible with the treatment works.
- To correct inadequate treatment of many pollutants by industry prior to their release to the environment.
- To improve the feasibility of recycling and of reclaiming the municipal and industrial wastewaters and biosolids.
- To generally reduce health and environmental risks caused by discharges to sewers.
- To ensure that industry complies with promulgated limits for toxic and hazardous substances.
- To sample all discharges requiring surcharge.
- To promulgate and regulate revised Local Limits for the protection of the City's Wastewater Treatment Plant.

Impact/Output Measures	2009 Actual	2010 Actual	2011 Actual	2012 Estimated	2013 Budgeted
Site evaluations for compliance with effluent limitations	450	450	450	500	500
Permit reviews or reevaluation of existing permits with relation to promulgated Federal and local Standards	35	36	36	38	38
Site inspections to determine satisfactory operation of facilities and implementation of pollution control measures	32	36	36	38	38
Site evaluations for surcharge assessment	700	700	700	725	725

PROGRAM DETAIL

Bureau:	No:	Department:	Program:	No:
Wastewater Treatment	03-3733	Public Works	Storm Water & Stream Surveillance	0007

Program Description:

The SWSS staff develops and implements procedures to carry out the requirements of The City's Separate Storm Sewer Permit, NPDES No. PA-0063665 and Section 402(p) of the Clean Water Act (Storm Water Rules) and monitors water quality in the watersheds to ensure the primary sources of water for the public water supply are not degraded.

Goal(s):

To determine and control sources of pollution in the City's storm sewer system. To provide protection for the City's potable water sources and to improve the general aesthetic value of the waterways. To obtain stormwater permit(s) from state (DEP) and/or federal (EPA) regulatory agencies.

Measurable Budget Year Objectives and Long Range Targets:

- To determine industrial/commercial contributions of pollutants to the storm sewer system.
- To perform investigations of industrial/commercial sites.
- To sample storm sewer outfalls.
- To investigate and determine sources of pollution.
- To increase public awareness regarding the pollution threat in storm runoff.

Impact/Output Measures	2009 Actual	2010 Actual	2011 Actual	2012 Estimated	2013 Budgeted
Site evaluations (Outfall Inspections)	235	162	270	270	270
Outfall sampling	130	0	0	10	10
Pollution/Spill incident investigations	10	12	23	20	20
