Advanced Life Support Assessment: Advanced life support (ALS) assessment is an assessment performed by an ALS crew as part of an emergency response that was necessary because the patient's reported condition at the time of dispatch was such that only an ALS crew was qualified to perform the assessment. An ALS assessment does not necessarily result in a determination that the patient requires an ALS level of service, but does allow for an ALS level of payment.

Advanced Life Support, Level 1 Emergency (ALS1-Emergency): The provision of an ALS assessment by an ALS provider and/or the provision of one or more ALS interventions, unless otherwise defined by the Centers for Medicare and Medicaid Services, in which such definition shall be incorporated herein by reference.

Advanced Life Support, Level 2 Emergency (ALS2-Emergency): The administration of at least three (3) medications or in some cases allowable multiple doses of the same medications and/or the provision of one or more of the following ALS procedures: Manual defibrillation, cardioversion, cardiac pacing, intubation of the airway, central venous line, chest decompression, surgical airway, or intraosseous line; unless otherwise defined by the Centers for Medicare and Medicaid Services, in which such definition shall be incorporated herein by reference.

BLS: Basic Life Support – the provision of a basic level of initial care and/or resuscitation efforts provided by an individual who is trained to provide emergency medical care which includes but is not limited to: CPR, opening and oxygenating the airway, attempting to control external bleeding, applying and operating an AED, bandaging, splinting and other basic skills of the First Responder, Emergency Responders or EMT. (Paramedics, nurses and physicians may also perform BLS skills even though they have a higher level of training)

Disposable Supplies: Disposable supplies utilized in excess of the customary amount and not exchanged/replenished from hospital stock or billed by the receiving hospital.

EMS: Emergency Medical Services -- the services utilized in responding to those persons presumed to be in need of immediate medical care within the jurisdiction of, and areas adjacent to the City of Allentown, provided by the City of Allentown bureau of Emergency Medical Services or those agencies operating in conjunction with the bureau of EMS.

EMS Provider: A person or persons who have been trained to any recognized level of competency as defined by the Pennsylvania Department of Health, including: Ambulance Attendant, First Responder, Emergency Responder, Emergency Medical Technician, Advanced Emergency Medical Technician – Paramedic, Critical Care Paramedic, Pre-Hospital Registered Nurse (PHRN), Nurse, Physician Extenders or Physician.

External Automated Defibrillation: The application of an automated external defibrillator (AED) used to attempt to convert lethal abnormal electrical heart rhythms.

Extra Attendant: An additional attendant required to adequately manage patient care on scene or during patient transport.

Mileage: Distance traveled by an ambulance from the point where the patient is picked up ending at the destination, facility, usually a hospital.

Non-Resident: An individual domiciled outside of the City limits of Allentown.

Oxygen Administration: The administration of oxygen for the treatment of conditions resulting from oxygen deficiency.

Patient: Person receiving emergency medical services.

Reasonable Collection Efforts: The issuance of a bill to the patient or to the party responsible for the patient's personal financial obligations, and subsequent billings, collection letters and telephone calls or personal contacts which constitute a genuine, rather than token, collection effort.

Resident: An individual domiciled within the City limits of Allentown.

Rescue: Active utilization of fire department or EMS rescue tools and equipment to facilitate extrication of a patient from an entrapped or access-limited area.

SCT: Specialty Care Transport. Inter/intrafacility transportation of a critically injured or ill individual at a level beyond the scope of an Paramedic; unless otherwise defined by the Centers for Medicare and Medicaid Services, in which such definition shall be incorporated herein by reference.

BLS Encounter Charge: A charge to a patient (which may be paid by the patient's insurance in some cases) who has received an assessment or a BLS level of treatment by an EMS Provider at a scene, through actual, implied or informed consent, but who has refused transport to a hospital for any reason.

Special Event Stand-By: The utilization of an ambulance or squad vehicle and one or more EMS Providers to stand-by at a planned and organized activity, event or contest, where a large group or gathering is expected, when the likely potential for the provision of emergency medical services may exist.

Third Party Payer: An insurance carrier or other coverage provider having a responsibility or other obligation to pay for medical services rendered to a patient as a result of that patient's accident, injury or illness.

ALS Treat, No Transport Charge: A charge to a patient (which may be paid by the patient's insurance in some cases) who has received an ALS assessment or an ALS level of treatment by an EMS Provider at a scene, through actual, implied or informed consent, but who has refused transport to a hospital for any reason.

391.04 POLICY

- A. The City recognizes the need to bill for these services to aid in the provision of Emergency Medical Services.
- B. No person requiring Emergency Medical Services shall be denied service due to a lack of insurance or ability to pay.
- C. All patients, whether or not domiciled in the City, and/or their financially responsible parties, insurers or carriers will be billed for emergency medical services provided by the City according to the charges established in Section 391.05 or at rates established by the City from time to time.
- D. The City shall make reasonable collection efforts, in some cases according to the most current rules or regulations set forth by the Centers for Medicare and Medicaid Services. The City may bill any applicable co-insurance carriers for such amounts not covered by primary insurances, as applicable by law. Exceptions include only those instances where the City has made a determination that the cost of billing and collecting such co-payments or deductibles exceeds or is disproportionate to the amounts collected.
- E. City residents shall not be held responsible for any balance due for medically necessary transport that is not covered by an insurance carrier with the exception of the deductible as long as said resident complies within 30 days of the date of the encounter with any and all requests for insurance information or verification of insurance (or lack thereof) from the EMS billing department. If the resident does not respond to the requests within the time frame above, the resident shall be responsible for the amount owed. City residents are responsible for any balance due not covered by an insurance carrier for transport deemed not medically necessary by EMS staff beginning with the resident's third use of this service. Exception to these provisions are when City Ambulances are not available due to resource depletion based on heavy call volume and where mutual aid ambulances are substituted to provide EMS services within the City of Allentown. In those cases, City residents may have additional charges above and beyond those covered by insurance based on the billing practices of the mutual aid ambulance service. (14843 § 1 12/1/10)
- F. The City shall not balance bill when prohibited by law.
- G. The City will allow reasonable payment arrangements in the event a patient cannot pay a bill all at once. (14843 § 1 12/1/10)
- H. A patient who received payment for City EMS bills from a third party payor is obligated to remit such monies to the City of Allentown (provided that the patient has not paid the bills directly). The City shall hold any patient who does not do so liable for any costs or fees related to the City's expenses of recovering the patient's EMS service fee.

391.05 PROCEDURE FOR BILLING EMERGENCY MEDICAL SERVICES

393.15.01 PURPOSE AND POLICY

The City Council finds that an adequate, sustainable source of revenue for stormwater management is necessary to protect the general health, safety, and welfare of the residents of the City. Further, the City Council finds that higher amounts of impervious area contribute greater amounts of stormwater and associated pollutants to the stormwater management system. Therefore the City Council determines that it is in the best interest of the public to enact a stormwater utility fee that allocates stormwater management program costs to property owners based on impervious area.

393.15.02 DEFINITIONS

Unless a provision explicitly states otherwise, the following terms and phrases used in this Article shall have the following meanings:

- A. Billing unit means 500 square feet of impervious area.
- B. Developed parcel means a parcel that contains impervious area equal to or greater than 250 square feet.
- C. Director means the Director of Public Works or the Director's authorized representative.
- D. Impervious area means a surface that prevents the downward infiltration of water into the underlying soil. The use of stone and gravel will not be considered an impervious area for the purposes of this Article unless there is an impervious barrier underneath the stone and gravel. The Director may develop specifications for the mapping of impervious area for the purpose of

this Article, including the establishment of a uniform threshold under which a contiguous unit of impervious area is considered *de minimis* and not subject to mapping.

E. Owner means any person, firm, corporation, partnership, trust, company, association, government agency, society, or group owning real property in the City.

F. Stormwater means drainage runoff from the surface of the land resulting from precipitation or snow or ice melt.

G. Stormwater management program means the activities of the City necessary to operate, maintain, enhance, and expand the stormwater management system and the activities necessary to carry out the City's municipal separate storm system (MS4) permit and the stormwater-related provisions of the Land Development and Subdivision Ordinance, the Land Development Controls Ordinance, the Flood Control Ordinance, and the Storm Water Management Ordinance.

H. Stormwater management system means the system of runoff avoidance, infiltration, collection, and conveyance, including storm sewers, pipes, conduits, mains, inlets, culvers, catch basins, gutters, ditches, channels, detention ponds, streets, drains, and all devices, appliances, and stormwater management practices and facilities used for collecting, conducting, pumping, conveying, detaining, infiltrating, reducing, managing, avoiding generation of, and treating stormwater.

I. Facility means a structure or system that collects, conveys and manages the volume, rate, and/or quality of surface runoff. It must be designed to meet the requirements of the City of Allentown's Act 167 Stormwater Management Ordinance (April 19, 2007), the Pennsylvania Stormwater Best Management Practices Manual, and the requirements published by the Director. (15449 §1 6/20/18)

393.15.03 IMPOSITION OF STORMWATER UTILITY FEE

A. A stormwater utility fee is hereby imposed on every developed parcel in the City that appears in the Lehigh County parcel database as of December 31 of each year. All stormwater utility fees shall be deposited into the Stormwater Management Fund of the City described in Section 951.04.

B. The rate per billing unit to be used for calculating the stormwater utility fee shall be Twenty (\$20) Dollars per Five Hundred (500) square feet of impervious surface. All rates shall be established by the City Council through ordinance and reviewed annually.

C. Notwithstanding Section 393.15.03.A above, the following impervious area shall be exempt from the imposition of the stormwater utility fee:

1. Public streets as defined in Section 901.01.
2. Rail and associated rail ballast.

393.15.04 STORMWATER MANAGEMENT FUND

The Stormwater Management Fund is established as a separate enterprise fund of the City, which shall be used solely to cover the cost of the City's stormwater management program. The fund shall consist of revenue generated by the stormwater utility fee and other deposits that may be made from time to time by the City Council, including but not limited to federal or state grants and revenue from the sale of bonds. All interest or other income derived from stormwater utility fees shall remain or otherwise be deposited into the fund.

393.15.05 STORMWATER UTILITY FEE CALCULATION

A. Unless otherwise specified in this Article, the stormwater utility fee for each parcel shall be calculated in the following manner:

1. Determine the impervious area of the parcel in square feet.
2. Divide the impervious area of the parcel by the billing unit.
3. Round the resulting calculation using natural rounding to determine the number of billing units.
4. Multiply the number of billing units by the rate established in Imposition of Stormwater Utility Fee Section 393.15.03.B to obtain the stormwater utility fee for the parcel.

B. The fees for impervious area held in common in ownership are calculated as follows: (15449 §1 6/20/18)

1. Determine the total impervious area in square feet held in shared ownership and divide equally by the number of accounts. If an apportionment of ownership distribution is provided, either within the tax parcel data or provided by a resolution of all owners, then such distribution method shall be used to distribute the total impervious area among accounts.
2. Divide the impervious area for each account by the billing unit (500 sf.).
3. Round the resulting calculation using natural rounding to determine the number of billing units for each individual account.
4. Multiply the number of billing units by the rate established in Section 393.15.03.B. to obtain the stormwater utility fee for each account.

393.15.06 STORMWATER UTILITY FEE CREDITS

A. The City Council shall adopt by ordinance a system of credits that provides for reductions in the stormwater utility fee in recognition of practices that reduce the cost of stormwater management program. The types and amounts of credits is at the sole discretion of the City Council. The credit shall be applied after determination of the stormwater utility fee in accordance with Section 393.05. Stormwater Utility Fee Calculation.

i. An Owner may apply for credit against the stormwater utility fee by installing a facility which stores or treats of stormwater. Credits are calculated based on the impervious area treated by the facility and the credit amounts indicated in the table below: (15449 §1 6/20/18)

Credit Amount Table

Facilities Achieving 10% or More Sediment Reduction from Pre-Facility Conditions (Assumes That These Facilities Also Control Quantity)			
10% to <25%	20%	20%	40%
25% to <75%	25%		45%
75%+	30%		50%
All Other Facilities Built in Accordance with Article 1387 of the City Code, Regardless of Whether it is for Quality, Quantity, or Both			
All	10%	Not Applicable	10%

ii. An Owner may apply for credit against the stormwater utility fee if the property is subject to and compliant with a current PAG-03 NPDES General Permit for Discharges of Stormwater Associated with Industrial Activity or Individual NPDES Permit for Industrial Stormwater; and, will receive a 10% credit on the stormwater utility fee associated with impervious area covered by the permit. (15449 §1 6/20/18)

iii. No credit shall be authorized without a written decision of Director as to the facility's eligibility. (15449 §1 6/20/18)

These policies and procedures shall include, but not be limited to, provisions to reduce or eliminate the amount of credit if the Director determines that the practice is not functioning as intended.

i. The Director shall develop and publish requirements necessary for a facility to be eligible for the fee credit. The Director shall delineate the (15449 §1 6/20/18)

The Director may limit any credit received through the installation of the facility by the portion of City funds used to finance the facility's construction or installation. (15449 §1 6/20/18)

C. Nothing shall prevent the City Council from modifying the adopted system of credits, and such modifications may apply to holders of existing credits. (15449 §1 6/20/18)

If the property owner is making real estate tax payments on an installment basis as authorized in Section 353.01.B, then the stormwater utility fee will be collected on the same schedule. Any portion of a stormwater utility fee that is unpaid as of the subsequent July 16 shall be considered delinquent except if the unpaid stormwater utility fee is subject to an appeal in accordance with Section 393.15.08.the appeal procedures below.
