

Chapter 109.718 Comprehensive Monitoring Plan

Water suppliers shall develop a comprehensive monitoring plan to assure that all sources, purchased interconnections and entry points are included in compliance monitoring at the entry points and within the distribution system. The plan must contain at least all of the following: A list of all sources, purchased interconnections, treatment plants and entry points permitted under this chapter and their availability as designated as either permanent or emergency. The water supplier shall review and update the plan at least annually and as necessary to reflect changes to facilities or operations.
